

Reduce and Monitor your Supply Chain's SCOPE 3

Carbon Emissions with B100 and Optimus Technologies

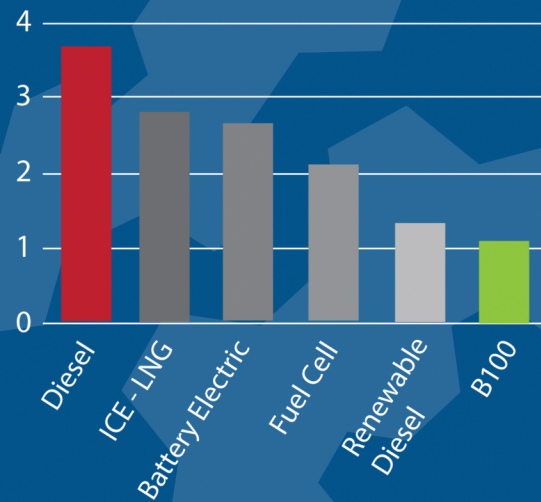

B100

Closed loop carbon cycle achieves 100% reduction in CO₂ vehicle emissions (GHG Protocol 2004 - Revised Version)

VS

Total Lifecycle CO₂ Emissions: Production, Operations and Disposal (MM lbs)

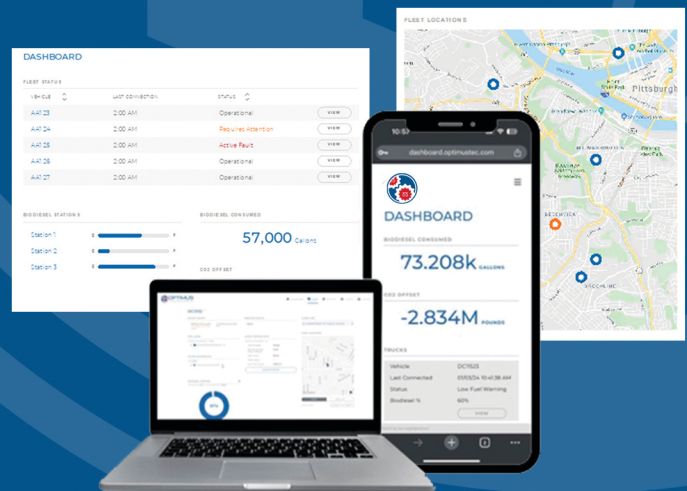

Source: American Transportation Research Institute (ATRI), May 2022 - Understanding the CO₂ Impacts of Zero-Emission Trucks: A Comparative Life-Cycle Analysis of Battery Electric, Hydrogen Fuel Cell and Traditional Diesel Trucks

Carbon Accounting

Monitor your Scope 3 carbon emissions with the Optimus Customer Dashboard

Real-time cloud-based carbon reporting:

- CO₂ reduction is based on volume of diesel fuel displaced by B100
- Report Scope 1 or 3 emissions reductions
